

# Jack-O-Lantern Halloween papercut chains

Print and cut out your stencil pieces - the gray area remains, the white is cut away. Fold a long strip of tissue paper back and forth ("accordian" style) into segments 4 cm wide. Lay your stencil on the top layer and trace around it lightly with a pencil. Using sharp scissors, cut through all the layers of tissue paper on the traced lines. When you unfold the tissue paper, you should have a long chain of Jack-o-lanterns.

*finished chains of Jack-o-lanterns*

*free to distribute, but please do not sell this pattern
