

# Easier Softie Ball in 6 pieces

*Step 1* Cut out the pattern shape below.

*Step 2* Use the pattern to trace and cut out 6 felt copies. (You will need a wider seam allowance for most other fabrics.)

*Step 3* With the wrong sides facing out, sew the pieces together into a ball shape. (Try to think about this as putting the peel back on an orange.) It's a good idea to reinforce the stitches between all six pieces where the points meet at either pole. Leave one edge open for turning and stuffing.

*Step 4* Turn the ball inside out through the opening. Stuff the ball with polyfil and sew it shut from the outside using whatever stitch works for you.

*inside out*

*done*
